

Completing VBC Questions

Mobile App

Once a Patient POC is saved, the Caregiver is presented with the selected Value Based Care Questions each and every time a Clock Out is performed for a visit associated with that POC, as illustrated in the images below (using the Mobile App).

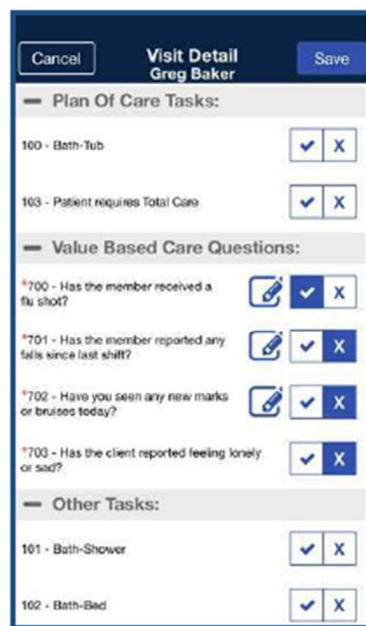

The Value Base Care Questions section displays below the Plan of Care Tasks section in the *Visit Detail* screen. All duties remain as read-only until a Caregiver begins to perform a **Clock Out** (when duties and questions become available to select). Duties and VBC Questions that are required are denoted with a red asterisk (*).

The screenshot shows the 'Visit Detail' screen for 'Greg Baker'. It includes a 'Clock In/Out' section with '01/20 at 07:15AM' and '01/20 at 07:30AM', and 'Clock In' and 'Clock Out' buttons. Below this is the 'Plan Of Care Tasks' section with a task '103 - Patient requires Total Care'. The 'Value Based Care Questions' section is highlighted with a red box and contains three questions, each with a red asterisk indicating it is required:

- *700 - Has the member received a flu shot?
- *701 - Has the member reported any falls since last shift?
- *702 - Have you seen any new marks or bruises today?
- *703 - Has the client reported feeling lonely or sad?

Mobile App: Value Based Care Questions

The screenshot shows the 'Visit Detail' screen for 'Greg Baker' after clicking 'Clock Out'. It includes a 'Cancel' button, a 'Save' button, and a 'Plan Of Care Tasks' section with tasks '100 - Bath-Tub' and '103 - Patient requires Total Care'. The 'Value Based Care Questions' section is now active and shows the same three questions as the previous screen, each with a red asterisk and a checkbox for selection:

- *700 - Has the member received a flu shot?
- *701 - Has the member reported any falls since last shift?
- *702 - Have you seen any new marks or bruises today?
- *703 - Has the client reported feeling lonely or sad?

Below this is the 'Other Tasks' section with tasks '101 - Bath-Shower' and '102 - Bath-Bed'.

Clock Out

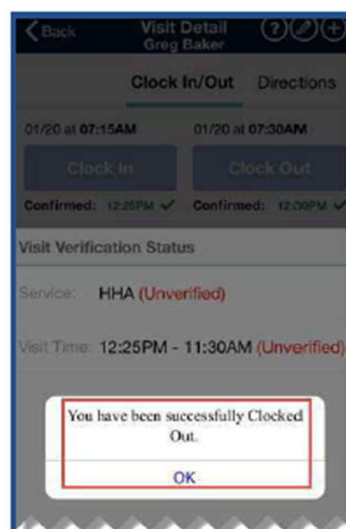

A Caregiver cannot complete a Clock Out if a duty or VBC question requires response. If required response duty or VBC question is unanswered, the Caregiver is alerted (as seen in the image below).

Once complete, the system alerts of a successful Clock Out.

A response must be entered before saving.

Required Response

Successful Clock Out
